BEST BET: Race 11 - #8 Luzmimi Princess

We know that speed is the name of her game, as Luzmimi Princess fired a disappointing effort two starts back when she was off slowly and had to try and come from off the pace in stakes competition. Last time out, however, she was beaten just a nose in the Liza Jane. I think she can potentially control the pace in here.

LONGSHOT: Race 2 - #5 Beneficiary

This is a horse who is always overlooked in the wagering, and I think the drop in class is key for him. He is the type that comes from off the pace, and should get a little speed to run at here. He fits at this level, and the good thing is that he still fits even if the race should come off the turf, given the weather that South Florida has been having.
