

Rule 61D-7.XXX Rainbow 6

(1) The Rainbow 6 requires selection of the first place finisher in each of six races. The entire net Rainbow 6 pool and carryover, if any, shall be distributed to the holder of a unique wager selecting the first place finisher in each of the selected six races. If there is no unique wager selecting the first place finisher in all six races, the major share of the Rainbow 6 pool shall be distributed as a single price pool to those who selected the first place finisher in the greatest number of races. The minor share shall be added to the, or create a, jackpot pool.

(3) If a dead heat for first occurs in any of the Rainbow 6 races:

(a) For contestants representing the same betting interest, the Rainbow 6 pool shall be distributed as if no dead heat occurred.

(b) For contestants representing two or more betting interests, the Rainbow 6 pool shall be distributed as a single price pool with each winning wager receiving an equal share.

(4) Should a betting interest in any of the Rainbow 6 races be scratched:

(a) A Rainbow 6 wager may be canceled after leaving the teller window and before the close of wagering if the wagering combination included the scratched runner, even if the scratch is part of a coupled entry or mutuel field.

(b) If the bettor does not exercise the cancellation option, the actual favorite, as evidenced by the Win pool at the host track for the contest at the close of wagering, shall be substituted for the scratched betting interest for all purposes, including pool calculations. If the Win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest post position. The totalisator generated price calculation report shall show each of the wagering combinations with the substituted betting interests which became winners as a result of the substitution.
